Aims of the Course	The objective of this course is to convey to students the structures, functions, and roles of international and regional organizations that play a key role in the functioning of the global economic and financial system. Within the scope of the course, the rationales for the establishment, operational mechanisms, and economic relations with Turkey of the IMF, the World Bank, the World Trade Organization (WTO), the OECD, the European Union, and UN organizations (such as UNCTAD) are analyzed. Accordingly, it is aimed that students grasp the processes of globalization and integration in the world economy, gain the ability to interpret international trade and finance policies, and critically analyze the intervention methods of these organizations in response to global crises.
