Course Syllabus

Code - Course Title	**OTZ570 - Seminar**
Course Type	II. SEMESTER
Laboratory + Practice	3+0
ECTS	**6.0**
Language of Instruction	Türkçe
Course Type	Required Courses
Course Instructor(s)	PROF. DR. SERHAT ODLUYURT, PROF. DR. BURCU ÜLKE KÜRKÇÜOĞLU, PROF. DR. ELİF TEKİN İFTAR, DR. ÖĞR. ÜYESİ ESİN PEKTAŞ KARABEKİR

Mode of Delivery	The mode of delivery is face to face.
Prerequisites	There is no prerequisite or co-requisite for this course.
Courses Recomended	None
Work Placement	N/A

Course Syllabus

Weeks	Learning Outcomes	Topics	Teaching Methods
Week - 1		What is research method? Why the research important? Ethic on the researches.	
Week - 2		Makes a literature review for the determined topic by scanning the national and international literature in order to support the content (the number and the currency of resources etc.)	
Week - 3		Collects the interrelated sources, makes a logical literature review from general to specific, summarizes the related sections (introduction, method) of the former researches from all aspects (purpose, participants, method, main findings) in order to prepare a research proposal	
Week - 4		Collects the interrelated sources, makes a logical literature review from general to specific, summarizes the related sections (introduction, method) of the former researches from all aspects (purpose, participants, method, main findings) in order to prepare a research proposal	
Week - 5		Collects the interrelated sources, makes a logical literature review from general to specific, summarizes the related sections (introduction, method) of the former researches from all aspects (purpose, participants, method, main findings) in order to prepare a research proposal Determines at least one participant/subject who has developmental incompetence (autism spectrum disorder or mental deficiency) as it is specified in the method in order to accomplish the implementation written in the research proposal	
Week - 6		Determines at least one participant/subject who has developmental incompetence (autism spectrum disorder or mental deficiency) as it is specified in the method in order to accomplish the implementation written in the research proposal	

Course Syllabus

Weeks	Learning Outcomes	Topics	Teaching Methods
Week - 7		Starts the experiment process by the determined participants/subjects by accomplishing the implementation written in the research proposal	
Week - 8		Carries on the experiment process by the determined participants/subjects by accomplishing the implementation written in the research proposal	
Week - 9		Carries on the experiment process by the determined participants/subjects by accomplishing the implementation written in the research proposal	
Week - 10		Carries on the experiment process by the determined participants/subjects by accomplishing the implementation written in the research proposal	
Week - 11		Carries on the experiment process by the determined participants/subjects by accomplishing the implementation written in the research proposal	
Week - 12		Carries on the experiment process by the determined participants/subjects by accomplishing the implementation written in the research proposal	
Week - 13		Carries on the experiment process by the determined participants/subjects by accomplishing the implementation written in the research proposal	
Week - 14		Carries on the experiment process by the determined participants/subjects by accomplishing the implementation written in the research proposal Reports (introduction,method, findings, discussion, reference) the research by considering the points in the articles 1.2 and 1.3 by using a clear, concise and fluent language.	

Learning Outcomes

#	Learning Outcome
1	Basic concepts on scientific research.
2	Will be able to explain data collection procedures.
3	Will be able to describe data analysis samples.
4	Will be able to report the research results.

Sustainable Development Goals
