Learning Outcomes

#	Learning Outcome
1	Students will be able to design an educational television program based on a pre-determined theme.
2	Students will be able to adapt to and overcome problems that arise during the design of their projects.
3	Students will be able to provide a report for the educational television programs they design and establish a workflow calendar.
4	Students will be able to collaborate with their instructors while designing their projects, completing a project proposal file before establishing a shooting schedule.
5	Students will be able to produce and direct two distinct live television projects in accordance with the studio means provided.
6	Students will be able to successfully implement all of the elements designed in their projects.
7	Manage and direct the production team and crew.
8	Students will be able to collaborate with their peers, successfully recording a completed television program based on their design.
9	Students will be able to discuss and constructively analyze peer projects with guidance from course instructors.
10	Students will be able to discuss completed projects based on the goals and results of the programs.
