Learning Outcomes

#	Learning Outcome
1	Explains the basic concepts of Ottoman archaeology, as well as surface survey and excavation methodologies.
2	It analyzes archaeological finds from production sites such as the Iznik and Kütahya çini kilns within the context of art history.
3	Identifies the material cultural characteristics of Traditional Turkish Art objects—such as çini, ceramics, glass, metal, and wood—unearthed from archaeological excavations.
4	Applies the theoretical principles governing the documentation, initial handling, and conservation/restoration processes of ancient artifacts uncovered during archaeological excavations.
5	Draws conclusions from architectural remains, inscriptions, and tombstones from the Ottoman period using an interdisciplinary approach (epigraphy, architecture, art history).
