Work Placement	This is not suitable for this course.
Aims of the Course	The aim of this course is to teach students the fundamental concepts, principles, and institutions of civil procedural law, and to ensure the comprehension of the procedural rules regarding the resolution of private law disputes before judicial bodies. Within this scope, it is intended that students learn the functioning of the civil litigation process and the rights, powers, and obligations of the parties and the court; and that they acquire the skills to apply procedural law rules to concrete cases, analyze legal problems, and generate solutions.
