Work Placement	N/A
Aims of the Course	The aim of this course is to provide students with fundamental knowledge and perspective regarding the discipline of Classical Archaeology by introducing the definition, scope, basic concepts, and research methods of archaeological science. Within this scope, the course aims to teach the historical development of Classical Archaeology, its relationship with other archaeological disciplines, and its research areas and methods, while providing a general overview of the historical, cultural, and artistic development processes of Ancient Greek and Roman civilizations. Furthermore, it is intended that students will be able to evaluate archaeological finds within their historical and cultural contexts, learn basic archaeological terminology, and gain scientific awareness regarding the preservation of cultural heritage.
