Aims of the Course	The objective of the Hittite Art course is to examine the material cultural remains of the Hittite civilization—which established the first centralized empire in Anatolia—from aesthetic and iconographic perspectives, including architecture, sculpture, relief, ceramics, and seal art. Accordingly, the course aims to enable students to understand how Hittite artworks were shaped within the context of the period's political ideology, religious beliefs, and artistic interactions with neighboring cultures such as Mesopotamia and the Aegean.
