Work Placement	N/A
Aims of the Course	The aim of the course is to examine the fundamental concepts of income distribution, measurement methods, and the economic and social consequences of income inequality. Within the scope of the course, the definition, types, and measurement of poverty; income distribution and poverty indicators; the causes and determinants of inequality; and the relationships between economic growth, employment, education, and social policies are addressed. Furthermore, the course aims to enable students to analyze income inequality and poverty issues in Turkey and globally, conduct evaluations using different measurement methods, and develop policy recommendations aimed at improving income distribution and reducing poverty.
