Course Syllabus

Code - Course Title	**ZEÖ520 - Acti.-Based Teac. Prac. for Pres. Chil. with Deve. Disabili.**
Course Type	II. SEMESTER
Laboratory + Practice	3+0
ECTS	**6.0**
Language of Instruction	Türkçe
Course Type	Elective Courses
Course Instructor(s)	DR. ÖĞR. ÜYESİ ELÇİN YÜKSEL AKGÜN

Mode of Delivery	The mode of delivery of this course is Face to face
Prerequisites	There is no prerequisite or co-requisite for this course.
Courses Recomended	No
Work Placement	N/A

Course Syllabus

Weeks	Learning Outcomes	Topics	Teaching Methods
Week - 1		The general characteristics of the teaching techniques used in the natural environment and the benefits of their use in educational environments	
Week - 2		The general characteristics of incidental teaching and natural waiting time teaching, which are among the teaching techniques used in the natural environment	
Week - 3		The main features of mand-model and transition-based instruction out of the naturalistic instruction techniques	
Week - 4		Definition and general characteristics of activity-based instruction	
Week - 5		Strategies used in activity-based teaching	
Week - 6		Setting goals in activity-based teaching	
Week - 7		Prepares activity-based teaching plan	
Week - 8		Transforming natural opportunities into teaching during daily routine activities using methods based on applied behavior analysis.	
Week - 9		Play-based activities to support different development areas (gross and fine motor skills) of children with developmental disabilities	
Week - 10		Play-based activities that support different development areas (cognitive and language acquisition skills) of children with developmental disabilities	
Week - 11		Developing daily routine-based chart examples for the practical use of activity-based teaching in the classroom	
Week - 12		Data collection in activity-based instruction and making changes and/or adaptations to data-based practice	
Week - 13		Examination of activity-based teaching practices/research in the literature	

Course Syllabus

Weeks	Learning Outcomes	Topics	Teaching Methods
Week - 14		Examination of activity-based teaching practices/research in the literature.	

Learning Outcomes

#	Learning Outcome
1	Will be able to discuss the general characteristics of teaching techniques used in natural environments and the benefits of their use in educational environments.
2	Will be able to discuss the general characteristics of incidental teaching and natural delay time teaching, which are among the teaching techniques used in the natural environment.
3	Will be able to discuss the general features of demanding, modeling and transition-centered teaching, which are among the teaching techniques used in the natural environment.
4	Will be able to define the definition and general features of activity-based teaching.
5	Will be able to explain the use of strategies used in activity-based teaching in educational settings by giving examples.
6	It will determine the functional purpose for the use of activity-based teaching in the classroom environment.
7	Will be able to prepare an instructional plan for the functional purpose determined based on activity-based instruction.
8	Will be able to explain how natural opportunities can be transformed into teaching during daily routine activities using methods based on applied behavior analysis
9	Will be able to plan instruction by embedding the functional goals determined for children with developmental disabilities into play-based activities.
10	Will be able to develop examples of charts based on daily routines regarding the practical use of activity-based teaching in the classroom environment.
11	Will be able to make data-based changes/adaptations in data collection and application in the teaching plan prepared based on activity-based teaching.
12	Will be able to prepare a research proposal based on activity-based instruction
