Course Syllabus

Code - Course Title	**TEZ700 - Thesis**
Course Type	IV. SEMESTER
Laboratory + Practice	0+1
ECTS	**30.0**
Language of Instruction	Türkçe
Course Type	Required Courses

Mode of Delivery	Face to face
Prerequisites	To have successfully completed the compulsory and elective courses of the program.
Courses Recomended	There is no recommended optional programme component for this course.
Recommended Resources	Sources related to the chosen topic.
Work Placement	N/A

Course Syllabus

Weeks	Learning Outcomes	Topics	Teaching Methods
Week - 1		Exchange information with the student on his/her areas of interest in order to define the scope of the thesis	
Week - 2		Discussion of activities related to the research topic within the scope of the thesis study and development of recommendations.	
Week - 3		Discussion of activities related to the research topic within the scope of the thesis study and development of recommendations.	
Week - 4		Assessment of the proposed ideas and the literature review in relation to the thesis topic.	
Week - 5		Assessment of the proposed ideas and the literature review in relation to the thesis topic.	
Week - 6		Evaluation of the proposed ideas and the literature review related to the thesis topic.	
Week - 7		Deciding on the research plan and instruments to be employed in the thesis study based on the insights gained from the literature review.	
Week - 8		Deciding on the research plan and instruments to be employed in the thesis study based on the insights gained from the literature review.	
Week - 9		Deciding on the research plan and instruments to be employed in the thesis study based on the insights gained from the literature review.	
Week - 10		Discussion of the activities concerning the research topic within the scope of the thesis and the formulation of recommendations.	
Week - 11		Discussion of the activities concerning the research topic within the scope of the thesis and the formulation of recommendations.	

Course Syllabus

Weeks	Learning Outcomes	Topics	Teaching Methods
Week - 12		Determination of the parameters for the applications to be implemented within the framework of the thesis study.	
Week - 13		Determination of the parameters for the applications to be implemented within the framework of the thesis study.	
Week - 14		Determination and execution of the necessary steps and procedures foreseen in relation to the thesis study.	

Learning Outcomes

#	Learning Outcome
1	By designing an original research topic in the field of finance, the student can synthesize current literature and develop a hypothesis or research question that contributes to the field.
2	The student can identify scientific methods appropriate for the research question and conduct research in accordance with ethical standards and social responsibility.
3	The student can organize the collected data, analyze it using appropriate statistical or econometric methods, and assess the significance of the results.
4	The student can interpret the analysis results from a finance perspective, establish cause-and-effect relationships, and propose innovative, policy-oriented solutions.
5	The student can structure the research findings in the form of a scientific report or publication and present them effectively in written and oral formats on national or international platforms.
