Course Syllabus

Code - Course Title	**TEZ700 - Thesis**
Course Type	IV. SEMESTER
Laboratory + Practice	0+1
ECTS	**30.0**
Language of Instruction	Türkçe
Course Type	Required Courses

Mode of Delivery	The course is conducted through individual supervision meetings with the advisor, research progress evaluations, and academic feedback processes related to the thesis study.
Prerequisites	This course has no prerequisites or corequisites.
Courses Recomended	Students are expected to have completed the other courses required in the program.
Recommended Resources	Students are expected to regularly follow recent empirical studies related to the selected research topic.
Work Placement	When necessary, the study may be implemented through official correspondence with relevant individuals and institutions.

Course Syllabus

Weeks	Learning Outcomes	Topics	Teaching Methods
Week - 1		Evaluation of the thesis scope, research plan, and study process with the supervisor	
Week - 2		Academic discussions on developing the research topic and research problem	
Week - 3		Studies on reviewing the literature and developing a literature synthesis	
Week - 4		Evaluations aimed at developing the theoretical framework and research model	
Week - 5		Discussion of the research method and research design with the supervisor	
Week - 6		Evaluation of plans related to sampling, data collection instruments, and the data collection process	
Week - 7		Sharing and evaluating the progress of the thesis study with the supervisor	
Week - 8		Academic supervision meetings regarding data collection, data organization, or data analysis processes	
Week - 9		Discussions on interpreting research findings and relating them to the literature	
Week - 10		Academic evaluations aimed at developing relevant sections of the thesis	
Week - 11		Review of the methodological and theoretical aspects of the thesis study	
Week - 12		Discussion of the thesis draft with the supervisor and academic peers	
Week - 13		Revision and improvement of the thesis based on supervisor feedback	

Course Syllabus

Weeks	Learning Outcomes	Topics	Teaching Methods
Week - 14		General evaluation of the thesis study and planning of the research process	

Learning Outcomes

#	Learning Outcome
1	Students will be able to develop an independent research problem and construct the theoretical and methodological framework of a thesis study.
2	Students will be able to ground the research problem through systematic review and synthesis of the literature.
3	Students will be able to collect research data and interpret them using appropriate analytical methods.
4	Students will be able to report research findings according to academic writing standards and complete the thesis study.
